Superintendent's Report.

To The School Board,
Enfield Town District:

Following the practice established last year, this report will deal with the period since the last district meeting rather than that actually covered by the financial report herewith appended.

The district received a total of \$2,293 16 as state aid for the year ending June 30, 1921. As mentioned in last year's report, this was less by \$1306 than the amount called for by our budget submitted Sept. 15, 1920. At the annual meeting in 1921 the sum of \$1269 59 was voted to meet this and other deficits of the year 1921, but the money was not paid over to the school treasurer before July 1, 1921. Consequently our balance sheet still shows notes outstanding of \$5000, altho' \$1000 was voted at the 1920 meeting for payment of notes.

The last legislature amended the school law as passed in 1919 in several respects, the most notable being is the matter of the distribution of State Aid. As now in effect, the law requires a district to raise and expend \$5.00 per thousand of its "equalized valuation inventory" for elementary schools in order to be eligible for state aid. Other restrictions are imposed so that the Enfield School District receives no state aid this year.

By the votes passed at the 1921 meeting \$9,250 83 was raised for elementary schools, \$4600 for high school, \$900 for repairs, \$1000 on the district debt, \$300 for officers' salaries, \$654 per capita tax and \$1269 59 for deficits of the previous year. Other sources of revenue bring the total of receipts up to a minimum of \$18,259 42, exclusive of any possible income from the Copeland Block.

Our estimated expenditures for the year ending June 30, 1922, are: teachers' salaries, \$11,270; books and supplies, \$1100; Janitor service, \$624; fuel \$800; repairs, \$900; \$2 per capita tax, \$654; payment on debt, \$1000. All other expenditures bring the total estimate up to \$18,038.

From the above estimates one may readily gather that our necessary expenses are met by our present system of levies without the necessity of state aid

During the year the George Hill School was remodeled so that, with the exception of the heating and water supply, it meets all the requirements for the standard school. The building was shingled and painted inside and out. The seating arrangement was changed to improve lighting conditions. The wood shed was attached to the east side of the building and the toilets put in first class condition, as we may expect them to remain, since there is no access to them now except thru the school room, thus giving the teacher effective supervision over them.

The East Hill schoolhouse is the only one now in need of repairs. The condition of the door frames and floor would indicate that the floor timbers are rotted out and in need of replacement. This should be attended to the coming summer.

Last summer the new basement room in the High School building was partitioned off to secure a room for typewriter practice, and an office, both of which were much needed.

The village school building is so crowded that it is time to begin to think of providing additional room. I would suggest that the district consider the possibility of using the old Congregational Church as a High School building, if it can be secured for the purpose. It seems to me that this building could be remodelled for the purpose at a cost that would mean a great saving to the tax-payers. We have already reached our seating capacity in the brick building where the enrollment is
